APP CONNECTORS

An **IDEAL** Company

Anderson Power Products® (APP®), is an international leader in high power interconnect solutions. In 1877, Anderson began as a small company in Boston, MA making innovative trolley and railway power designs. Today as a subsidiary of IDEAL® Industries APP connectors are used around the world across many markets including: Telecom & IT Equipment, Motive Power, and Alternative Energy. APP offers a range of connectors to meet power, signal, & ground needs in protected or environmentally exposed applications.

Powerpole

This versatile connector series invented by Anderson Power Products (APP) meets a wide range of power connection needs. The four housing sizes in the Powerpole product family can carry a wide range of amperage and wire sizes in the most compact footprint. For currents up to 350A and from wire sizes of #20 AWG (0,75 mm²) to 3/0 (70 mm²). Powerpole can handle them all! A wide range of colored housing options can be stacked together to create a proven reliable custom connector. These housings can be used with different contacts to create wire-to-wire, wire-to board, or wire-to-busbar connections. The Powerpole® connector combines high quality materials with a cost-effective and innovative design for powerful versatility.
